

TAEKWONDO AMERICA SCHOLASTIC ACHIEVEMENT PROGRAM

Teacher: This student is a member of Taekwondo America. One of the main aspects of our Taekwondo Program is stressing to the children the importance of academic excellence. We work to motivate the students to try their hardest and give 100% dedication to everything they do, especially in school. We also have incorporated an award system to reward the students who show a positive effort in their school work. This is as follows: for the students who receive a grade average of "A", their name is placed on an "A" board. The students who have a grade average of "B" are placed on the "B" board, and those students who do not have a "A" or "B" average, but put forth their best effort in class will be placed on the Best Effort Board. Taekwondo is a very safe sport that meets the needs of the below average child as well as the above average child. A child who would most likely become a benchwarmer in other sports would have the opportunity to gain the self-confidence and coordination necessary to excel, just as the exceptional child could advance at his/her own pace of learning. The Scholastic Achievement Program documents the direct correlation between Taekwondo America training and higher academic achievement. Please fill out the form below and mark which category, if any applies to this student. Give this form back to the student, and have him return it to his Taekwondo Karate instructor. Thank you for your time and cooperation. If you would like a free, interesting, and educational demonstration for your class, please check this box and we will contact you,
